Piccolo—Air Diffuser for Ponds and Tanks

The Piccolo is Canadian Pond's smallest diffuser, ideal for aerating bowl-shaped ponds or ponds with uneven bottoms.

The Piccolo is an extremely versitile diffuser that can be paired with any of our compressors.

Design and rugged composition makes the Piccolo a perfect fit for residential and commercial use!

Benefits of the Piccolo diffuser:

1. Self-weighted—just let it sink where you need it! Robust and long-lasting
2. Boosting oxygen protects fish, reduces odors, and breaks down pond muck
3. Powerful plume of bubbles reduces stagnation and increases circulation in your pond
4. Its simple design allows for maintenance-free installations

Caracteristics

- Base Material : Stainless Steel type 304
- Diffuser : Porous pipe
- Arrives fully assembled in 1 box
- Bubble Size : Fine
- Installation Requirements : Maximum diffuser depth of 4 feet.
- Warranty: 1 year
- Air requirement optimal CRM: 0.9 CFM
