## HEAT TOLERANCE

All analyzes were performed at an ambient room temperature of 68 ° F (20 ° C). It is at this temperature that Physical properties of the material are optimal.

Take note that the choice of used fittings greatly influence the properties of the material.

Canadianpond.ca Products Ltd. provided these charters for informational purposes only and can not guarantee the accuracy of these.

The Torpedo™ tubing is made to be in water. Exposing this hose out of the water can affect its performance if exposed to heat.
