

## Fountain Care Checklist

We are proud to be the authorized Canadian service and repair center for Kasco Marine. Our repair shop keeps in inventory original manufacturing parts to service and repair your deicer or fountain. Our technicians received the required training offered by Kasco to ensure top quality services done according to their specifications. As an authorized service center, your warranty claims and maintenance repairs can be made right here at our shop, without having to return the defective product to the manufacturer. You can save on additional costs, and the repair will be under full warranty.

Step	Date last performed	Condition/results	Date last performed	Condition/results
Clean unit				
Check Zinc Anode				
Check for damage				
Routine Maintenance				
Test ground fault
