

CONCENTRATED LIQUID AQUATIC DYE

This environmentally friendly, non-toxic concentrated lake dye has been formulated to treat ponds & lakes. Each super-concentrated litre will treat an entire surface acre of pond water.

The aquatic dye helps filter out sunlight as well as create a more natural dark colour and aesthetically pleasing appearance to the pond. Algae and weeds need sunlight to grow, therefore by limiting the amount of UV light that enters the pond, you are reducing one of the factors that contribute to algae growth.

CanadianPond Liquid Dyes are commonly used by hotels, golf courses, commercial premises and pond owners. It will not stain plants, swimmers, pets, or wildlife when applied at the recommended rate.

For best results, this product should be used with beneficial pond bacteria to help ensure your pond or lake remains clean and clear all season long.

BENEFITS

Filters sunlight and provides an aesthetically pleasing, natural appearance to pond water

Blocks up to 40% of the sun's rays to effectively starve the growth of existing algae and formation of new growth

Keeps water temperature cooler

Reduces algae and aquatic weed growth in garden ponds & small lakes

Easy to apply and lasts 4 to 6 weeks, depending on water flow

Can be mixed quickly and evenly throughout the pond with the use of a fountain, aerator or similar mechanical device

FEATURES

Available in black (Midnite), blue (Aqua) or mix of black and blue (Natural)

Super-concentrated formula (>84% pure pigments)

Completely free of pesticides and herbicides

Harmless food based dye will not stain swimmers, fish, plants or other wildlife when used as directed.

FORMATS

12 bottles / case

BLACK / BLUE+BLACK / BLUE

DOSAGE

1 bottle will treat up to 6-acre foot (7 500 m³, 2 000 000 gallons) or 1 surface acre.

APPLICATION

For best results, apply to different areas around the edges of the pond or use in conjunction with aeration. Repeat monthly or as needed, as pigments will oxidize and gradually disappear.

MANIPULATION

Wear protective gloves and eye protection. Handle with care. Can strain when not diluted. Keep out of reach of children, away from food and drinking water. Avoid exposure and contact with acids, alkalis and strong oxidizing agents as they may react with the product.

STORAGE

Protect from freezing and heat. Store in original container out of direct sunlight in a dry, cool, well ventilated area. Keep container tightly closed when not in use.

PRECAUTION

Refer to Safety Data Sheet (SDS)
