

ROBUSTAIRE™ DIFFUSED AERATION

Kasco®

MOVING WATER FORWARD, SINCE 1968

ROBUSTAIRE™ DIFFUSED AERATION SYSTEMS

Kasco RobustAire™ Diffused Aeration Systems provide beneficial water mixing and movement from the bottom up. This helps prevent weed overgrowth, algae, unpleasant odors, fish kills, and other common water quality issues.

THE LONGEST LASTING, MOST EFFICIENT DIFFUSER

CONTACT KASCO

Kasco's experienced team of experts will help you select the right aeration system for your application.

ROBUSTAIRE™ DIFFUSED AERATION

Available in small, medium, and large compressor cabinets, these durable systems feature innovative airflow, operate at lower internal temperatures, and withstand the toughest outdoor conditions.

The shore-mounted compressor pushes air through self-weighted lines to a diffuser at the bottom of the pond, lake, or tank. This ensures the water is entirely mixed for a consistent temperature and stable environment, helping to prevent the most common water quality issues in residential, commercial, and industrial settings.
